FireVue™

Universal Case
Fits 3.5" or 5.25"
Hard Drives,
CD, DVD, or Tape

The FIREVue™ FireWire 1394 / Ultra IDE Systems are designed for the ultimate in FireWire speed. Running up to 80MB/s, these ultra fast designs use "third generation" technology to achieve the fastest data transfer rates available. Also incorporated into their design is versatility. Each case comes with a removable face plates so that it can be used with a variety of devices.

designed for the
ultimate in FireWire
speed and
compatibility.

Achieving the ultimate in reliability is also a design feature. We use an extra heavy-duty power supply to guarantee the drives get exactly what they need. Our design incorporates a durable clear plastic shell which surrounds a metal sub-frame for extra strength and durability. The snap-together drive bay makes for a quick and easy installation.
