

SATA II / Aluminum Hot-Swap System

SATAVue™

**The Fast & Affordable
Disk-To-Disk Backup**

The SATAVue™ SATA Hot-Swap Drive Systems provide high speed and Hot-Swapability at an unbelievably low price. Now there is an affordable way to store large amounts of data at ultra fast **300 MB/s** data transfer rates. Even better, any drive can be removed in seconds and shared or replaced with another.

**over 1000
gigabytes of ultra
fast storage.**

The heavy aluminum construction allows these systems to run ultra cool because the enclosure acts as a large heat sink... dissipating all the excess temperature.

The Aluminum Hot-Swapable Trays provide unlimited storage capabilities at a very affordable price.

SATAVue Hi-Speed Serial ATA
300 MB/s Second Data Transfer
Aluminum Construction
ATA 6 Large Drive Support
One year Warranty

Drive Trays are Hot-Swapable

SATA Vue™ SATA II HOT-SWAP Disk-To-Disk Backup Systems

SPECIFICATIONS :

- DRIVES :

160 Gig 250 Gig 500 Gig

750 Gig 1000 Gig

- BUS TYPE :

SATA I or II, Serial ATA.

- PERFORMANCE :

Up to 300 MB/s

- COOLING :

Heat Sink Design - Ultra Quiet

- SUPPORTED OS's :

Macintosh

- standard drive support

Windows 98SE, ME, 2000, XP

- standard drive support

Linux

- standard drive support

- POWER CHARACTERISTICS :

115/230 vac 50-60 hz

15 watts universal input

- POWER ON :

Slide in Tray

- WEIGHT & DIMENSIONS :

5w x 7d x 1.75h

3 Lbs

- SOFTWARE UTILITIES :

SATAVue comes with no software because it is completely supported by most operating systems.

Unlimited storage and data protection is what these SATA Hot-Swap Systems offer. Now inexpensive SATA (Serial ATA) drives can be used in our SATA

Hot-Swap Trays and as much storage as is required can be dedicated for backup, DV, AV, database application, and all other types of storage needs. To add more drives simply buy extra trays as needed. The trays are inexpensive and offer the best solution for large storage needs.

The heart of these SATA Hot-Swap Systems is our unique Aluminum Tray technology that allows SATA drives to be inserted or removed while the computer is running and the power is on. The system operates very much like a floppy drive with the exception that the amount of storage is thousands of times larger. We support true ATA-6 specifications giving us compatibility with all the new larger drive mechanisms.

These units come complete with everything needed including a 3' shielded SATA cable and power cable (no software needed for Macintosh, Win 98SE, ME, 2000, and XP).

Additional Trays offer unlimited storage capabilities... just add another tray and drive as storage needs increase.

Aluminum construction protects the drive while providing additional cooling.

Extruded aluminum enclosure acts like a large heat sink... drives run cool without fans.. they're whisper quiet!

Hot-Swap Drive Trays are easily removed.

Ultra heavy-duty aluminum construction

Handle allows for easy drive insertion or removal.

Optional padded carrying case protects the drive and its data. Information can easily and safely be transported.

Part #	Description
3552	SATA II Aluminum Hot-Swap 1 Bay External
4320	SATA II Aluminum Hot-Swap 1 Bay w / 160 Gig
3540	SATA II Aluminum Hot-Swap 1 Bay w / 250 Gig
3820	SATA II Aluminum Hot-Swap 1 Bay w / 500 Gig
4850	SATA II Aluminum Hot-Swap 1 Bay w / 750 Gig
1061	SATA II Aluminum Hot-Swap 1 Bay w / 1000 Gig
3420	Additional Hot-Swap Tray
2360	Padded Carrying Case for Tray
5360	SATA - SATA 3' Shielded Cable
5361	SATA - SATA 6' Shielded Cable
5036	eSATA - SATA 3' Shielded Cable
5174	eSATA - SATA 6' Shielded Cable

Hard drive purchase includes installation, testing, and burn-in.

The Affordable and Easy To Use Backup Solution.
