

SATA II Disk Drive / Hot-Swap RAID Rack

SATAVue™

The Fast & Affordable Disk-To-Disk Backup

The SATAVue™ SATA Rack Hot-Swap RAID Systems provide high speed and Hot-Swapability at an unbelievably low price. Now there is an affordable way to store large amounts of data at ultra fast 300 - 600 MB/s data transfer rates. Even better, any drive can be removed in seconds and shared or replaced with another.

over 2000
gigabytes of ultra
fast storage.

The LCD Display monitors drive temperature and warns if the drive is not operating properly before expensive data losses occur.

The Aluminum Hot-Swapable Trays provide unlimited storage capabilities at a very affordable price.

SATAVue Hi-Speed Serial ATA
300 - 600 MB/s Second Data Transfer
Aluminum Construction
ATA 6 Large Drive Support
One year Warranty

Drive Trays are Hot-Swapable

SATA Vue™ SATA II Hot-Swap 2-Bay RAID / JBOD Drive Systems

SPECIFICATIONS :

- DRIVES :

MAXIMUM CAPACITY 2 BAY :

- 1000 Gigs x 2 = 2000 Gigs

MAXIMUM CAPACITY 2 BAY Rack :

- 1000 Gigs x 2 = 2000 Gigs

- BUS TYPE :

SATA I or II, Serial ATA

- PERFORMANCE :

Up to 300 MB/s to 600 MB/s

- COOLING :

DOUBLE Fan Design Ultra Quiet

- SUPPORTED OS's :

Macintosh

- standard drive support

Windows 98SE, ME, 2000, XP

- standard drive support

- POWER CHARACTERISTICS :

115/230 vac 50-60 hz

80 watts universal input

- POWER ON :

Key Lock locks in Tray

- WEIGHT & DIMENSIONS :

18.5w x 14d x 1.75h -- 9 Lbs

7.5w x 11d x 6.5h -- 9 Lbs

- SOFTWARE UTILITIES :

SATAVue comes with no software

because it is completely supported by most operating systems.

RAID compatibility, unlimited storage and data protection is what these SATA Hot-Swap 2-Bay Systems offer. Now inexpensive SATA (Serial ATA) drives can be used in our SATA Hot-Swap Trays and as much storage as is required can be dedicated for backup, DV, AV, database application, and all other types of storage needs. To add more drives simply buy extra trays as needed. The trays are inexpensive and offer the best solution for large storage needs. These systems can also be configured for RAID using the OS's RAID capabilities.

The heart of these SATA Hot-Swap Systems is our unique Aluminum Tray technology that allows SATA drives to be inserted or removed while the computer is running and the power is on. The system operates very much like a floppy drive with the exception that the amount of storage is thousands of times larger. We support true ATA-6 specifications giving us compatibility with all the new larger drive mechanisms.

These units come complete with everything needed except the options listed (no software needed for Macintosh, Win 98SE, ME, 2000, and XP).

Additional Trays offer unlimited storage capabilities... just add another tray and drive as storage needs increase.

Aluminum construction protects the drive while providing additional cooling.

Optional padded carrying case protects the drive and its data. Information can easily and safely be transported.

Part #	Description
1065	SATA II LCD 2 Bay Hot-Swap Rack Case Kit
2342	SATA II LCD 2 Bay Hot-Swap Case Kit (just add the drive)
8720	Additional Hot-Swap Tray
2360	Padded Carrying Case for Tray
5036	eSATA / SATA Shielded External 3'
5174	eSATA / SATA Shielded External 6'
6161	eSATA / eSATA Shielded External 3'
8731	eSATA / eSATA Shielded External 6'
8810	SATA 160 Gig 7200 rpm Drive Mechanism
4840	SATA 250 Gig 7200 rpm Drive Mechanism
1145	SATA 500 Gig 7200 rpm Drive Mechanism
1175	SATA 750 Gig 7200 rpm Drive Mechanism
2022	SATA 1000 Gig 7200 rpm Drive Mechanism

Systems include hard drive installation, testing, and burn-in.
