

# SATA II Disk / Aluminum Hot-Swap Internal

## SATAVue™

### The Fast & Affordable Disk-To-Disk Backup

The SATAVue™ SATA Hot-Swap Internal Drive Systems provide high speed and Hot-Swapability at an unbelievably low price. Now there is an affordable way to store large amounts of data at ultra fast 300 MB/s data transfer rates. Even better, any drive can be removed in seconds and shared or replaced with another.

over 1000  
gigabytes of ultra  
fast storage.

The heavy aluminum construction allows these systems to run ultra cool because the enclosure acts as a large heat sink... dissipating all the excess temperature.

The Aluminum Hot-Swapable Trays provide unlimited storage capabilities at a very affordable price.

SATAVue Hi-Speed Serial ATA  
300 MB/s Second Data Transfer  
Aluminum Construction  
ATA 6 Large Drive Support  
One year Warranty

Drive Trays are Hot-Swapable

# SATAVue™ SATA II HOT-SWAP Internal Disk-To-Disk Backup Systems

**SPECIFICATIONS :**

**MAXIMUM CAPACITY 1 BAY:**

- 1000 Gigs x 1= 1000 Gigs

**- BUS TYPE :**

SATA I or II, Serial ATA

**- PERFORMANCE :**

Up to 300 MB/s

**- COOLING :**

Aluminum heavy duty heat sink

**- SUPPORTED OS'S :**

Macintosh

- standard drive support

Windows 98SE, ME, 2000, XP

- standard drive support

Linux

- standard drive support

**- POWER CHARACTERISTICS :**

5 & 12 Volts DC Std. Power Conn.

7-15 watts load

**- POWER ON :**

Slide in Tray

**- WEIGHT & DIMENSIONS :**

5.75w x 8d x 1.7h

3 Lbs

**- SOFTWARE UTILITIES :**

SATAVue comes with no software because it is completely supported by most operating systems. These systems are truly plug and play.

Unlimited storage and data protection is what these SATA Hot-Swap Systems offer. Now inexpensive SATA (Serial ATA) drives can be used in our SATA Hot-Swap Trays and as much storage as is required can be dedicated for backup, DV, AV, database application, and all other types of storage needs. To add more drives simply buy extra trays as needed. The trays are inexpensive and offer the best solution for large storage needs.

The heart of these SATA Hot-Swap Systems is our unique Aluminum Tray technology that allows SATA drives to be inserted or removed while the computer is running and the power is on. The system operates very much like a floppy drive with the exception that the amount of storage is thousands of times larger. We support true ATA-6 specifications giving us compatibility with all the new larger drive mechanisms.

These units come complete with everything needed including a 3' shielded SATA cable and power cable (no software needed for Macintosh, Win 98SE, ME, 2000, and XP).

Additional Trays offer unlimited storage capabilities... just add another tray and drive as storage needs increase.

Ultra heavy-duty aluminum construction

Hot-Swap Drive Trays are easily removed.

Hot-Swap Drive Trays are easily removed while the computer is on and running. This is truly Hot-Swapable technology.

Aluminum construction protects the drive while providing additional cooling.

Optional padded carrying case protects the drive and its data. Information can easily and safely be transported.

Part #	Description
5346	SATA II Aluminum Hot-Swap (no drive)
1160	SATA II Aluminum Hot-Swap w / 160 Gig
1231	SATA II Aluminum Hot-Swap w / 250 Gig
1017	SATA II Aluminum Hot-Swap w / 500 Gig
4850	SATA II Aluminum Hot-Swap w / 750 Gig
1057	SATA II Aluminum Hot-Swap w / 1000 Gig
3420	Additional Hot-Swap Tray
2360	Padded Carrying Case for Tray

Hard drive purchase includes installation, testing, and burn-in.
